

# YOU'VE LEARNED IT, YOU'VE EARNED IT... NOW GET IT!

## **BECOME CERTIFIED**

National Certification is a  
general recognition  
of an individual's competency  
as measured against national standards.

**FSI.ILLINOIS.EDU**

### **What is National Certification?**

National Certification verifies a candidate has successfully completed an evaluation of knowledge, skills, and abilities against the national standard.

### **How is National Certification beneficial to... YOU?**

- Recognized and valid across state lines
- Demonstrates the recipient has met and or exceeded national standards
- Shows that you can match skills and knowledge against peers from other departments and agencies

### **YOUR DEPARTMENT?**

- Elevates the fire department and profession as a whole
- Signifies a commitment to training, career development, and staying up to date with current industry best practices

### **How can you become nationally certified?**

Successfully complete an approved course and the course examination.
